Source: Nevada State Health Division HIV/AIDS Reporting System (eHARS), (Feb 2010)

New HIV Infections are counted in eHARS surveillance statistics and include HIV and AIDS cases diagnosed in Nevada, both living and deceased. The surveillance data excludes HIV/AIDS cases diagnosed in other states, but who currently live in Nevada. HIV Diagnoses and AIDS Diagnoses may duplicate case counts if the person was diagnosed with both HIV and AIDS in 2008.

Persons living HIV AIDS data includes data on persons living in Nevada with HIV (not yet AIDS) and AIDS based on the current address listed in the HIV/AIDS Reporting System (eHARS). These persons may or may not have been diagnosed with HIV or AIDS in Nevada.

* Rate per 100,000 population is based on 2008 interim population estimates from NV Demographics.

**All other counties include Carson City, Churchill, Douglas, Elko, Esmeralda, Eureka, Humboldt, Lander, Lincoln, Lyon, Mineral, Nye, Pershings, Storey, & White Pine counties
